XProtect® Express

Affordable surveillance with video integration

milestone

XProtect® Express

XProtect Express is affordable video surveillance software for smaller companies that need to integrate video into their existing business operations. With support for integration capabilities businesses can create a surveillance solution with custom functionality by adding applications such as analytics and access control, making XProtect Express ideal for customers that need more than just a security system.

Suited for:

✓ Single-location solution
✓ Small businesses, particularly retail

Product characteristics:

✓ Support for up to 48 cameras and five concurrent users
✓ Easily locate and navigate to cameras via an interactive map
✓ Choice of three viewing clients: XProtect® Smart Client, XProtect® Web Client and Milestone Mobile available in 27 languages
✓ Software wizards easily add and configure cameras to expand the system
✓ Built-in video motion detection ensures video footage of incidents
✓ Integrated pan-tilt-zoom (PTZ) control
✓ System alarms detect problems with cameras and components
✓ Privacy masking to hide areas as required
✓ Archives to network storage for optimal hardware use

Solutions to empower you:

✓ Can be customized with additional functionality by implementing third-party software or hardware integrations
✓ Support for Milestone Interconnect™ and Milestone Customer Dashboard
✓ Flexible camera licensing options for seamless system expansion
✓ One-year Software Upgrade Plan included ensures easy and cost-effective access to new functionality
